Aquapel[®] *Glass Treatment*

Rain Repellent Glass Treatment

- Remarkably improves visibility in the rain!
- Repels rain, snow and sleet
- Makes it easier to remove ice, snow, bugs and dirt
- Lasts for months, up to six times longer than other leading glass treatments

See Clearly,

Aquapel Glass Treatment was developed by PPG Industries, leaders in glass technology. When applied to a vehicle windshield, this innovative product improves visibility in the rain, day & night.

Drive Safer.

A University of Michigan study indicates that auto glass treatments can improve a driver's visual acuity by nearly 35%. Additionally, a driver's response time to identify a small target was improved from four seconds to three seconds. At 45mph that represents 58 feet.

Longer.

Aquapel forms a chemical bond with glass, unlike other products that simply coat glass. Aquapel can last up to 6 times longer than other leading products. One application can last for months.
